

The public comment period on the Donlin Gold project has been extended.
Use this postcard to comment.

Please send your postcard to the U.S. Army Corps of Engineers with postmark before the **May 31, 2016** deadline.

If it hasn't occurred yet,
I'd like to see policies &
procedures on how hazardous
materials are disposed & the
written contingency plan
if there was ever any
emergency related to
hazardous material
leakage, spill, etc. One
can never be too safe when
potentially impacting subsistence
& livelihood needs. Thank you.
