

US Army Corps of Engineers
Donlin Gold Project EIS

Comment Form

The Corps welcomes your comments on the Draft Environmental Impact Statement. If you'd like to mail your comments, please feel free to use this form. Write your comments below then fold this page in thirds so the mailing address shows. Additional pages can be inserted. Remember to affix first class postage. You can also email your comments to POA.donlingoldeis@usace.army.mil, or fax them to (907) 753-5567.

Important topics for comments would include:

- *Comments and questions about the accuracy of information in the Draft EIS.*
- *Comments and questions about the adequacy of methods or assumptions used.*
- *New information to be considered in preparing the Final EIS.*
- *New reasonable alternatives or revisions to current alternatives.*
- *Additional measures to reduce impacts (mitigation).*

The pipeline will open new areas to hunters on all terrain vehicles causing a user conflict between sports hunters & subsistence hunters in the villages of Tyonek, Skwentla, Telida, Nikolai & McGrath. Every September there are Otters who land and off load sportsmen w/all terrain vehicles at the Farewell Gravel Strip. Now with a right of way all the way to the Kuskokwim River an already economically strapped rural population who depend on healthy moose harvests will now have to contend with sportsmen competing for the same food source that feeds a family all year in Bush Alaska. This area needs a project like Donlin Gold but this pipeline should be rerouted or should end at Farewell and not pose a critical problem on our villages where there are no jobs, no cash

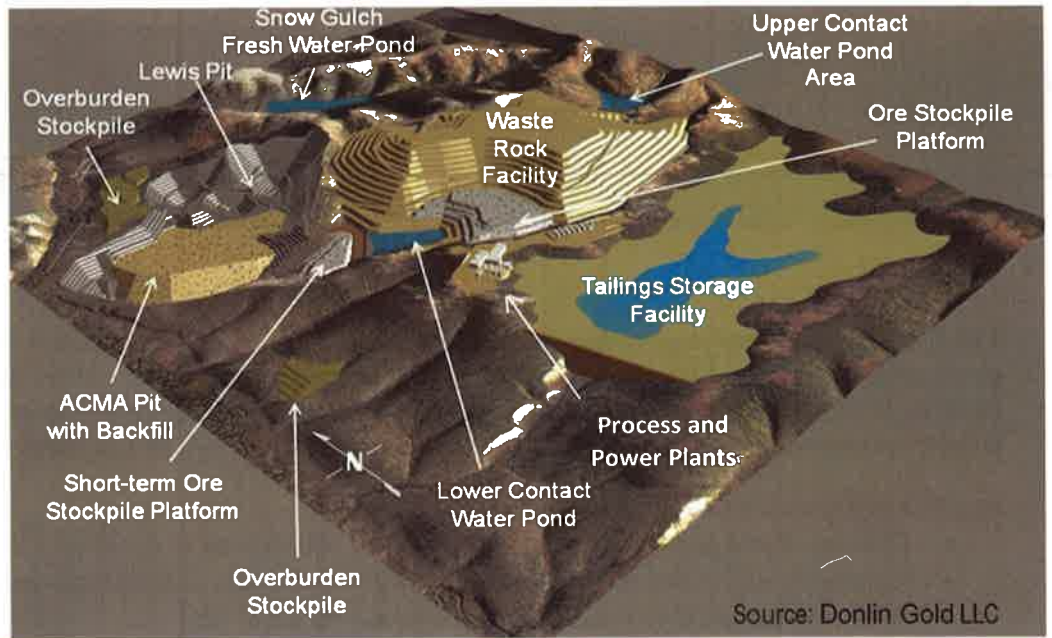

David Warden Anchorage, Alaska

Layout of Proposed Mine Site

The image to the right illustrates the eventual layout of a proposed gold mine, ten miles north of the community of Crooked Creek on the Kuskokwim River in southwestern Alaska, for which the US Army Corps of Engineers is preparing an EIS. The project, proposed by Donlin Gold, LLC, includes a natural gas pipeline and transportation and components. You may use this mail-in form to submit comments.
